PROFESSIONAL SUMMARY

Cybersecurity and IT student with hands-on experience in technical support, documentation, and data management. Currently building operational systems and training materials at a multi-brand restaurant group while shadowing a corporate IT team. Comfortable working independently, picking up tools fast, and translating technical processes into clear documentation. Has a special passion for hospitality values and practices. Seeking a help desk or IT support role where I can grow my technical skills and contribute from day one.
Authorized to work in the US for any employer
